HAMILTON, Bermuda, May 5, 2015 (GLOBE NEWSWIRE) -- Maiden Holdings, Ltd. (Nasdaq:MHLD) ("Maiden" or "the

Company") today reported first quarter 2015 net operating earnings⁽¹⁾ of \$26.6 million compared with \$25.6 million in the first guarter of 2014. First guarter 2015 net income attributable to Maiden common shareholders was \$32.4 million compared to a net loss attributable to Maiden common shareholders of \$4.1 million in the first guarter of 2014. First guarter 2014 net income was impacted by a non-recurring non-cash charge of \$28.2 million, representing the accelerated amortization of both the original issue discount and issuance costs associated with the repayment of the Company's 14% coupon junior subordinated debt ("TRUPs").

Commenting on the Company's results, Art Raschbaum, Chief Executive Officer of Maiden, said: "During the first guarter of 2015, while market conditions remain competitive, we continue to see opportunities to expand relationships with current clients and to selectively establish new client relationships. Despite the impact of a stronger dollar and a challenging low interest rate environment, we continued to enjoy a significant expansion in investable assets in the quarter. Although quarterly investment income reflects some of the challenges of putting that cash to work, as we move to fully invest record levels of cash, we expect a continued improvement in operating earnings."

Results for the guarter ended March 31, 2015

Maiden reported first quarter 2015 net operating earnings⁽¹⁾ of \$26.6 million, or \$0.35 per diluted common share compared with \$25.6 million, or \$0.34 per diluted common share in the first guarter of 2014. Net income attributable to common shareholders was \$32.4 million or \$0.41 per diluted common share compared with a loss of \$4.1 million or \$0.06 per diluted $common^{(6)}$ share in the first quarter of 2014.

In the first guarter of 2015, gross premiums written increased 15.5% to \$834.3 million from \$722.4 million in the first guarter of 2014. Net premiums written totaled \$797.0 million in the first guarter of 2015, an increase of 12.3% compared to the first guarter of 2014. The Diversified Reinsurance segment's net premiums written totaled \$294.2 million, an increase of 0.9% versus the first quarter of 2014. Within the Diversified Reinsurance segment, U.S. growth was largely offset by the impact of foreign exchange and lower premiums in the first quarter of 2015 from the international portfolio of IIS. In the AmTrust Reinsurance segment, net premiums written increased by 20.0% to \$502.8 million compared to the first guarter of 2014 reflecting the continued impact of the premiums associated with the Tower Group transaction.

Net premiums earned of \$577.3 million increased 11.2% compared to the first quarter of 2014. In the Diversified Reinsurance segment, net premiums earned decreased 3.4% to \$192.7 million compared to the first quarter of 2014. The AmTrust Reinsurance segment earned premiums were up 26.1% to \$384.6 million compared to the first guarter of 2014.

Net loss and loss adjustment expenses of \$377.4 million were up 7.4% compared to the first quarter of 2014. The loss ratio⁽⁷⁾ of 64.8% was lower than the 67.0% reported in the first quarter of 2014.

Commission and other acquisition expenses, including general and administrative expenses, increased \$33.6 million to \$194.6 million in the first quarter of 2015, compared to the same quarter a year ago. The total expense ratio⁽¹⁰⁾ rose to 33.4% for the first quarter of 2015 compared with 30.7% in the same quarter last year, due to a change in business mix. General and administrative expenses for the first quarter of 2015 totaled \$16.3 million compared with \$14.9 million in the first quarter of 2014. The general and administrative expense ratio⁽⁹⁾ was 2.8% in the first quarters of 2015 and 2014.

The combined ratio⁽¹¹⁾ for the first quarter of 2015 totaled 98.2% compared with 97.7% in the first quarter of 2014. The Diversified Reinsurance segment combined ratio was 101.2% in the first quarter of 2015, up from 97.6% in the first quarter of 2014. The higher Diversified Reinsurance segment combined ratio was primarily impacted by foreign exchange, large loss activity in European auto, and to a lesser extent underperformance of U.S. commercial auto. The AmTrust Reinsurance segment reported a combined ratio of 94.6% in the first quarter of 2015 compared to 95.6% in the first quarter of 2014. The improved combined ratio for the AmTrust Reinsurance segment was due to improved rates and higher premium volume in workers' compensation business.

Net investment income of \$28.3 million in the first quarter of 2015 increased 1.5% compared to the first quarter of 2014 and was down 11.0% compared to \$31.7 million in the fourth quarter of 2014. During the first quarter of 2015, the Board of Directors declared dividends of \$0.13 per common share, \$0.515625 per Series A preference share and \$0.90625 per Series B preference share.
