HAMILTON, Bermuda - Maiden Holdings, Ltd. (NASDAQ: MHL) ("Maiden" or "the Company") today reported record first quarter 2014 net operating earnings<sup>(1)</sup> of \$25.6 million, or \$0.34 per diluted common share compared with \$21.1 million, or \$0.29 per diluted common share in the first quarter of 2013. In the first quarter of 2014, net income was \$2.1 million compared to net income of \$28.1 million in the first quarter of 2013, impacted by a non-recurring non-cash charge of \$28.2 million, representing the accelerated amortization of both the original issue discount and issuance costs associated with the TRUPs.

Commenting on the Company's results, Art Raschbaum, Chief Executive Officer of Maiden, said: "Maiden's record operating profit in the first quarter of 2014 clearly demonstrates the Company's enhanced earnings power following the redemption of the 14% TRUPs in mid-January. Net investment income was also a quarterly record for Maiden as our invested asset base reflects continued growth. Written premium growth in our Diversified and AmTrust segments for the quarter was strong and notwithstanding the elevated level of non-cat property losses in the first quarter from our U.S. Diversified segment, underwriting results remain solidly profitable. On balance, we are pleased with business performance for the quarter. Importantly, we remain true to our specialist, lower volatility, non-catastrophe oriented reinsurance business model, which is uniquely designed to serve the reinsurance capital needs of small to mid-sized insurers."

**Results for the quarter ended March 31, 2014**

Net operating earnings<sup>(1)</sup> for the first quarter of 2014 were \$25.6 million, or \$0.34 per diluted common share compared with \$21.1 million, or \$0.29 per diluted common share in the first quarter of 2013. Net income was \$2.1 million compared to net income of \$28.1 million in the first quarter of 2013.

In the first quarter of 2014, net premiums written totaled \$709.9 million, an increase of 3.0% compared to the first quarter of 2013. The Diversified Reinsurance segment's net premiums written totaled \$291.6 million, an increase of 9.0% versus the first quarter of 2013. The growth in the Diversified Reinsurance segment's premium was the result of expanding existing client relationships as well as increased new business. In the AmTrust Quota Share Reinsurance segment, net premiums written increased by 21.5% to \$419.0 million compared to the first quarter of 2013, driven primarily by worker's compensation, which continues to experience a strong rate environment and increased payrolls. The limited net premiums written in the NGHC Quota Share segment reflects the cancellation of that contract as of August 1, 2013.

Net premiums earned of \$519.2 million increased 6.3%, or \$30.8 million compared to the first quarter of 2013. Earned premiums increased 1.6% in the Diversified Reinsurance segment to \$199.3 million compared to the first quarter of 2013. The AmTrust Quota Share Reinsurance segment earned premiums were up \$84.6 million or 38.4% to \$304.9 million compared to the first quarter of 2013. The NGHC Quota Share segment net premiums earned were \$15.0 million in the first quarter of 2014, down 79.2% compared to the first quarter of 2013, reflecting the mutually agreed cancellation of the NGHC quota share reinsurance contract as of August 1, 2013.

Net investment income of \$27.8 million in the first quarter of 2014 increased 26.7% compared to the first quarter of 2013. The average yield on the fixed income portfolio (excluding cash) is 3.57% with an average duration of 4.8 years.

Net loss and loss adjustment expenses of \$351.3 million were up \$16.4 million compared to the first quarter of 2013. The loss ratio<sup>(7)</sup> decreased by 0.8 percentage points to 67.0% versus the first quarter of 2013.

Commission and other acquisition expenses including general and administrative expenses increased \$14.6 million to \$161.0 million in the first quarter of 2014, compared to the year ago quarter, while the total expense ratio<sup>(10)</sup> rose to 30.7% for the first quarter of 2014 compared with 29.7% in the same quarter last year, with business mix attributable to the difference. General and administrative expenses for the first quarter of 2014 totaled \$14.9 million compared with \$14.1 million in the first quarter of 2013. The general and administrative expense ratio<sup>(9)</sup> dropped to 2.8% in the first quarter of 2014 versus 2.9% in the first quarter of 2013.

The combined ratio<sup>(11)</sup> for the first quarter of 2014 totaled 97.7% compared with 97.5% in the first quarter of 2013. The Diversified Reinsurance segment experienced an unusual frequency of unrelated non-catastrophe property losses during the quarter, which drove the combined ratio in that segment to increase to 99.4% compared to 97.5% in the first quarter of 2013. The AmTrust Quota Share Reinsurance segment reported a combined ratio of 95.3% in the first quarter of 2014 compared to 95.9% in the first quarter of 2013.

Total assets increased 3.3% to \$4.9 billion at March 31, 2014 compared to \$4.7 billion at year-end 2013. Shareholders' equity was \$1.2 billion, up 2.3% compared to December 31, 2013. Book value per common share was \$11.47 at the end of the first quarter of 2014 or 3.0% higher than at December 31, 2013.

During the first quarter of 2014, the Board of Directors declared dividends of \$0.11 per common share, \$0.515625 per Series A preference share and \$0.90625 per Series B preference share.

(7)(9)(10)(11) Loss ratio, general and administrative expense ratio, expense ratio and combined ratio are operating metrics. Please see the additional information on these measures under Segment information tables.
