USE OF PROCEEDS

Each of the sections “Summary—The Offering—Use of Proceeds” on page S-6 of the Preliminary Prospectus Supplement and “Use of Proceeds” on page S-12 of the Preliminary Prospectus Supplement is hereby replaced in its entirety with the following:

Net proceeds from this offering are expected to be approximately \$97.2 million (assuming no exercise of the underwriters’ over-allotment option) after deducting the underwriting discount and estimated offering expenses payable by Maiden NA and us. We and Maiden NA intend that Maiden NA will use all of the net proceeds from this offering, together with cash on hand, to repurchase approximately \$100 million aggregate liquidation amount of the outstanding trust preferred securities, or the TRUPs, originally issued by Maiden Capital Financing Trust, a trust established by Maiden NA. The TRUPs were originally issued in January 2009 with an aggregate stated liquidation amount with respect to the assets of Maiden Capital Financing Trust of \$260.0 million. Maiden NA concurrently issued approximately \$260.0 million junior subordinated debt to Maiden Capital Financing Trust. Such debt may be redeemed by Maiden NA, in whole or in part, at any time prior to January 2014 at a redemption price equal to 114% of the principal amount to be redeemed plus accrued but unpaid interest, and thereafter at a redemption price equal to 100% of the principal amount to be redeemed plus accrued but unpaid interest. Under the terms of the TRUPs, any such redemption proceeds must be applied to redeem *pro rata* the outstanding TRUPs.

Prior to such repurchases, we may temporarily invest such net proceeds in marketable securities and short term investments.

CERTAIN FINANCIAL RATIOS

On a pro forma basis, after giving effect to (i) the use of the net proceeds of this offering to repurchase outstanding TRUPs originally issued by Maiden Capital Financing Trust, as described under “Use of Proceeds” (assuming no exercise of the underwriters’ over-allotment option) and (ii) the interest costs on such net proceeds of this offering used to repurchase outstanding TRUPs, as if such repurchases had occurred at the beginning of the three-month period ended March 31, 2011 and the year ended December 31, 2010, the pro forma ratio of earnings to fixed charges would have been as follows:

	Three Months Ended <u>March 31, 2011</u>	Year Ended <u>December 31, 2010</u>
Pro Forma Ratio of Earnings to Fixed Charges⁽¹⁾	3.89x	3.54x

⁽¹⁾ The ratio of earnings to fixed charges was computed by dividing earnings by fixed charges. For this purpose, “earnings” consists of pre-tax income plus fixed charges; and “fixed charges” consists of interest expense and debt amortization charges.

CAPITALIZATION

The “Capitalization” section on page S-13 of the Preliminary Prospectus Supplement is hereby replaced in its entirety with the following:

The following table sets forth our consolidated capitalization at March 31, 2011, on a historical basis and as adjusted to give effect to the offering of the notes and the application of the estimated net proceeds therefrom as described under “Use of proceeds.” This table should be read in conjunction with our consolidated financial statements and related notes thereto and “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” both of which can be found in our Annual Report on Form 10-K for the year ended December 31, 2010 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2010, which are incorporated into this prospectus supplement by reference.
