HAMILTON, Bermuda - Maiden Holdings, Ltd. (NASDAQ: MHLD) ("Maiden" or "the Company") today reported a fourth quarter 2017 net loss attributable to Maiden common shareholders of \$133.6 million or \$1.59 per diluted common share compared to net loss attributable to Maiden common shareholders of \$74.7 million or \$0.87 per diluted common share in the fourth quarter of 2016. "While we are disappointed with our results for the fourth quarter, we believe we have taken significant steps to strengthen our reserves for losses which will help to accelerate a return to profitability in 2018 and beyond." said Art Raschbaum, Chief Executive Officer of Maiden. "Our reserve actions in the fourth quarter reflect a more aggressive response to observed development in the quarter and throughout the year on the AmTrust Reinsurance segment as well as our Diversified segment. Despite these actions, Maiden's inception to date AmTrust underwriting results remain profitable and with the exception of pre-2016 underwriting year commercial auto liability the balance of our U.S. Diversified segment historical portfolio and more recent underwriting years continue to perform profitably and within expectations."

"Notwithstanding the reserve actions and re-underwriting processes that have been implemented, we are also actively engaged in efforts to develop and implement further initiatives and strategies aimed at strengthening shareholder value," said Raschbaum. "We are committed to do whatever is necessary to deliver greater value for shareholders, customers, and employees."

Gross premiums written and net premiums written decreased in the fourth quarter of 2017 primarily as a result of commutations and non-renewals earlier in the year. Gross premiums written increased slightly during the fourth quarter, with the lower growth attributed to AmTrust underwriting actions. Combined ratio <sup>(10)</sup>	107.1%	109.4%	(2.3)

Gross premiums written decreased modestly in 2017 due primarily to the commutation and return of unearned premium of a large account in the second quarter of 2017. Net premiums written increased as a result of the reduction of corporate retrocessional programs in 2017. The segment experienced adverse development of \$71.4 million in 2017 compared to \$96.8 million in 2016 due to higher than expected loss emergence with over half from two commercial auto accounts.

Gross premiums written decreased marginally due to slower organic growth offset by reductions in AmTrust's Specialty Program segment reflecting underwriting initiatives focused on improving the profitability of these classes of business. Net premiums written increased in 2017 compared to 2016 due to the lower utilization of retrocessional capacity in 2017. The segment experienced adverse loss development of \$239.9 million during 2017 compared to \$54.0 million in 2016. More than half of the loss development in 2017 was from workers' compensation with general liability and, to a lesser extent, commercial auto, contributing to the adverse result.
